DEAFNESS CAN BE CURED.

COOPER'S ETHEREAL OIL—A prompt and lasting remedy for DEAFNESS, also for pains and discharge of matter from the Ears Hundreds of cures in cases deemed utterly hopeless have firmly established its superiority over every former Medical discovery.

This valuable Acoustic Medicine is a compound of four different Oils, one of which, the active and principal ingredient, is obtained from the bark of a certain species of Walnut, a new and effectual agent in the cure of deafness

Persons who had been deaf for 10, 15 and even 20 years have been permanently cured by using this oil In fact, so numerous and so emphatic have been the testimonials in its favor that the inventor claims for it the distinction of an Infallible Remedy, in all cases, when the Ear is perfect as to formation.

FOREIGN PERIODICALS.

REPUBLICATIONS OF

The London Quarterly Review
The Edinburgh Review,
The Foreign Quarterly Review,
The Westminster Review,

AND

Blackwood's Edinburgh Magazine

THE above Periodicals are reprinted in New-York, immediately on their arrival by the British steamers, in a beautiful clear type on fine white paper, and are faithful copies of the originals —BLACKWOODS MAGAZINE being an exact facsimile of the Edinburgh edition

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise As literary organs, they stand far in advance of any works of a similar stamp now published, while the political complexion of each is marked by a dignity, candor and forbearance not often found in works of a party character

They embrace the views of the three great parties in England—Whig, Tory, and Radical.—"Blackwood" and the "London Quarterly" are Tory, the "Edinburgh Review" Whig and the "Westminster," Radical The "Foreign Quarterly" is purely literary, being devoted principally to criticisms on foreign Continental Works

The prices of the RE PRINTS are less than one third of those of the foreign copies, and while they are equally well got up, they afford all that advantage to the American over the English reader

TERMS

PAYMENT TO BE MADE IN ADVANCE

For any one of the four Reviews,	$3 00	per annum
For any two, do	5,00	"

CLUBBING

Four copies of any or all of the above works will be sent to one address on payment of the regular subscription for three—the fourth copy being gratis

☞ Remittances and communications must be made in all cases without expense to the publishers The former may always be done through a Post master by handing him the amount to be remitted, taking his receipt and forwarding the receipt by mail post paid, or the money may be enclosed in a letter *post-paid*, directed to the publishers

N. B—The *Postage* on all these Periodicals is reduced by the late Post Office law, to about *one third the former rates*, making a very important saving in the expense to mail subscribers

☞ In all the principal cities and Towns throughout the United States to which there is a direct Railroad or Water communication from the city of New York these periodicals will be delivered FREE OF POSTAGE

The Sugar-Coated Pills.

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood! To avoid them, keep it pure!!

That PREDISPOSITION which exposes the human frame to the infection and virulence of every class of disorders, proceeds directly or indirectly, from a morbid state of the system caused by IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS The originator of the only true and genuine Sugar Coated Pills, that this new and elegant preparation can be obtained only from advertised agents and at the proprietor's establishment No 323 Broadway, N York —Price 25 cents a single box, 5 boxes for one dollar

G W LADD, Agent for Bangor

Among the numerous remedies which stand, reputable on the basis of an ancient name; any none perhaps which have acquired so great celebrity, and extensive use in so short a time as this invaluable article —They have gained their high reputation, alone by their good works Those who once try them always use them again They are gentle to the stomach,—they improve the functions of secretion, nutrition and circulation They restore digestion and appetite and create a natural warmth inwardly, which glows through the whole system, giving it greater vitality and animation The experience of thousands attest to their good effects After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system His digestive organs perform their proper functions, his blood regains its wonted purity the oppressive sense of weakness and pain departs, and his body becomes endowed with renewed strength and vigor —while the mind resumes its original vivacity and clearness Such are the results produced by Halsey's Sugar coated Pills the mildest, yet most effectual preparation of the class in use

In BILIOUS complaints, Costiveness, Indigestion, Dyspepsy, and all other disorders of the stomach they produce the most happy results For Sores, Boils, Saltrheum, Tetter, Erisipelas, Eruptions of the Skin, Scrofulous complaints and many other like diseases arising from IMPURE BLOOD they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks, according to the directions which accompany the box were cured of the most afflicting cases of *scrofulous affections* They give *Good Blood for Bad* Bottles of the boasted Sarsaparillas, contain less of the true virtues of that valuable plant and are less effectual, than a single box of these extraordinary Pills In Colds, Coughs, Influenza, Sore Throat, Headache, Giddiness &c, they are recommended with entire confidence; the relief in these cases is quick and permanent, For Fever and Ague, Fevers, Asthma, Piles, Loss of Appetite, Dropsy, Jaundice Worms, Looseness, General Debility, and many of the various other diseases to which the human system is liable, they have proved an infallible remedy Their action on the bowels is of the mildest character, even *over doses* never cause griping or unpleasantness, yet they are searching and efficient It is impossible by words, to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class, a trial only will explain the wide difference! The unhappy invalid after having *tested* but a *single box* of them, will with joy for the unexampled change wrought in his health, bear testimony to their uncommon virtues

N B The *coating of sugar* adds nothing to the great virtues of the Magic Life Pills, it is their uncommon powers in promoting health, on which all their merits stand, notwithstanding this they are the original sugar coated pills The proprietor made this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills coated them and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by disposing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar-coated Pills*. In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box, and buy only of advertised agents

LORRAINE'S PILLS.

THESE Pills are now acknowledged by thousands that use them daily, to be the only medicine that fairly takes the BANNER from all others They cause no pain or uneasiness of any kind in their operation and require neither change of diet nor care of any kind This medicine has actually done wonders It has established a reputation unrivalled, on its own merits, without being puffed up continually in the papers

The attention of the reader is respectfully called to the following highly respectable notices of this invaluable and incomparable medicine—and it will be seen its achievements are most extraordinary and daily experience speaks more and more remarkable cures, where other medicines had entirely failed of giving even relief

COUGHS, COLDS AND CONSUMPTION

A gentleman of Boston, was so much afflicted with hoarseness that he could not speak loud, took Lorraine's Pills They had an excellent effect, and rendered his voice soft, clear, and distinct in one night's time

PILES! PILES!! PILES!!! The only sure remedy for the Piles is

DR LORRAINE'S PILLS

Never in one single instance has failed to cure the worst of all diseases Certificates from the most respectable people of Boston, can be seen at his office

VERY REMARKABLE CASES!

John Bruce of Providence, had entirely lost the sight of one eye, and nearly so the other from inflammation, was entirely cured and his eye sight perfectly restored by a steady use of Lorraine's Pills for one month The certificate is in the hands of the General Agent, signed by three respectable witnesses

Mr J Greenwood has been entirely cured of a very large sore on his leg, by the use of only two boxes of Lorraine's Pills

SHE WAS POINTED AT!!

She was pointed at, in Washington street Boston, saying that is she! That's the lady that was so weak and sick and given over to *die!* and was *cured* even to admiration, by Lorraine's Pills! in somuch that when she goes to church, or to walk in the street she is actually pointed at,

☞ THAT IS SHE! ☜

DANCED IN FANEUIL HALL!

A lady in November 1844 commenced the use of Lorraine's Pills with all the frightful symptoms of death upon her, visable in the ghostly countenance accompanied with Despondency, Sighing Fainting, Convulsions, &c yet by the powerful virtues of only one of Lorraine's Pills daily, in the space of six weeks she acquired such a stomach, such a constitution! that she Danced in the Faneuil Hall in Boston

CAN YOU EAT OYSTERS?

One doctor asks his patients can you eat oysters &c, another can you drink milk &c Now we tell you if you take but one of Lorraine's Pills daily you can eat any thing and acquire a constitution, fit for all occasions and comforts and pleasures

Mrs ——, of Salem, was afflicted with a cancerous humor that settled in her breast took Lorraine's Pills and was entirely cured

Mrs ——, of Boston, was dreadfully afflicted with sore Nipples on account of a humor of the blood, took one of Lorraine's Pills every night with a view to cleanse her blood, which entirely cured her

Dyspepsia.—Mrs Susan Bond Pearl street N York was effectually cured of Dyspepsia by taking only one of Lorraine's Pills on going to bed, for eight days

Nervous or Sick Headache—Lady Smith 189 Friend st N Y was entirely cured of a severe nervous or sick headache, by taking three of Lorraine's Pills

Palpitation of the Heart—Miss E West Green Bush Place, N York, was entirely cured of a sin one of Lorraine a Pills every night for one week

Worms—Mr Jorque Gray of N York cured three of his children of Worms by giving them one pill each for three days

Genuine Vegetable Universal Pills.

THESE pills are an effectual assistant of nature having the same kind of action on the human body that storms and hurricanes have upon the air or that tides have upon the ocean, they purify What so judicious as the copying Nature! We see, when she wishes to become purified that she puts herself in commotion, which has the purifying effect And so we, to induce purity in our bodies, bring both system and commotion by artificial means, and experience has taught those who have adopted this course and who for this purpose have used these pills, that they were in the right, because the result has been sound health, or in other words, every organ has become restored to a state of purity, consistent with its functions, and although there are many whose bodies again are in a state of debility and suffering, and in us there is such a predisposition for decay, that all which can reasonably be expected is temporary relief nevertheless, many persons who have commenced with them and in the most trying circumstances of bodily affliction, after every other means and remedies have proved altogether unavailing, have been restored to health and happiness from their use, and the consequence is, they are now recommended by thousands of persons whom they have cured of consumption, influenza, colds, indigestion, dyspepsia, headache, and a sense of fulness in the back part of the head, usually the symptoms of apoplexy, jaundice, fever and ague, bilious, scarlet, yellow and common fevers of all kinds, asthma gout, rheumatism, nervous diseases, liver complaint pleurisy, inward, weakness, depression of the spirits, ruptures, inflammation, sore eyes, fits palsy, dropsy, small pox, measles, croup, coughs, whooping cough, quinsey, cholic, cholera morbus, gravel, worms, dysentery, deafness ringing noises in the head, king's evil, scrofula, erysipelas, or St Anthony's fire, salt rheum, white swellings, ulcers, some of thirty year's standing, cancers, bunions, swelled feet and legs, piles, costiveness, all eruptions of the skin, frightful dreams, female complaints of every kind, especially obstructions, relaxations, &c &c

N. H. DOWNS' Vegetable Balsamic Elixir.

The great Northern Remedy for CONSUMPTION.

Also for the cure of Colds, Coughs, Whooping Cough, Croup Bleeding of the Lungs, Bronchitis, Catarrh and all diseases of the Pulmonary or Bronchial Organs

IT is now more than ten years since this incomparable remedy was given to the public, with what success the thousands of restored invalids with the universal encomiums of a grateful people afford abundant and gratifying evidence Indeed no medicine has ever with such UNIVERSAL SUCCESS gained with disease It is its own best commendation, and to be valued needs but to be known

Its operation upon the system is marked and peculiar from that of most similar preparations

It is *EXPECTORANT*, and most essentially aids in the expulsion from the stomach and lungs of phlegm and phlegmatic humors, through the process of expectoration or spitting

It is *SUDORIFIC* and promotes a healthy perspiration thus expelling by the pores of the skin those pernicious fluids and impurities of the blood the retention of which in the system is a probable source of suffering to the invalid

It is slightly *CATHARTIC* and usually corrects any costiveness attendant upon Pulmonary complaints, while most similar preparations produce a contrary effect thus adding to instead of diminishing that difficulty (See statements of Mr Meander Mr Ross and others, in the pamphlets and bottles)

We do not pretend that the Elixir is a specific for all the ills that flesh is heir to, but we do say and can confirm by incontestible evidence, that for CONSUMPTION it is unequalled Hundreds by its use have been snatched from an untimely grave and hundreds more, who delayed too long its use have found even then the relief from sufferings which they had vainly sought from every other source

For hard and obstinate COUGHS whether produced by a mere cold, the relic of a fever or the result of a more fixed and permanent pulmonary habit it is just the thing needful as by its wonderful expectorant quality it loosens the cough and enables the patient to raise with little effort what would otherwise cause hours of hard and laborious coughing Many persons testify that after having been unable to obtain more than a slight degree of rest for weeks they have on taking the first dose obtained a comfort before unknown and by continuing its use in a short time have been restored to health

OBSTINATE COLDS AND COUGHS it will usually cure in from two to five days

To persons afflicted with *WHOOPING COUGH* we would especially recommend the Elixir as it relaxes the cough, and saves much of the labor of hard coughing usually attendant upon that disease

ASTHMA We believe it is a generally acknowledged fact wherever the medicine is known that nothing so generally gives relief—in so great a proportion of instances effects a perfect cure, in this distressing malady, as Downs' Elixir (See certificates of Dr Carleton, Mr Perkings and others in pamphlet)

CROUP This dangerous malady in children may be cured by Downs Elixir We speak confidently having never known, among the hundreds of instances in which it has been used, one where it has failed after a fair trial

BLEEDING AT THE LUNGS In this dangerous and formidable disease, the success of the Elixir has been such that it feel assured in saying no preparation has ever met with in this success It has rarely perhaps never been known to fail where it has been early resorted to & the directions faithfully followed (See statements of Mr Meander, Mr Walker, Mr Downs Alderman Morton and others in the sheets and pamphlets)

Respectfully yours, &c. I would say, never despair — Consumptives, Asthmatics, Sufferers from Colds, Coughs, Bleeding of the Lungs, who have tried everything else without success, Despair not! Read carefully either from experience or observed on know of its merits and when they tell you of its effect —what they have seen and what they know—are entitled to your confidence

Great Temperance Picture.

Yesterday, in company with several gentlemen, we examined the Great Temperance Picture, executed in this city by Rev. —— Holman who has devoted himself to the work for three months past. It is a large and striking picture and its exhibition and explanation will form a most potent lecture against the vice of intemperance, and serve to give new zeal in the friends of the cause for its promotion. We at an out-hand production. The expression gives a wrong impression. It is an elaborate work, producing quite a striking effect and one possessing much of real merit.

The picture is twenty feet long and fourteen feet high and there are twenty four figures delineated upon it. It represents generally the darkness of the past on the subject of intemperance passing away before the approaching light of the present, and by the glare arising from the conflagration of distilleries and all things connected with the accursed traffic.

Intemperance is represented under the figure of Old Alcohol, a bloated, wretched object in the last agonies of expiring nature. He is supported by two interested friends—the manufacturer and the dealer in the liquid fire, who are vainly endeavoring to arouse him by another glass. In sinking, he has fallen upon a moderate drinker with too great a weight to admit of his rising.

In one group lies a dead drunkard of the past with his pale and haggard countenance; rear, him is his fainting wife and terror stricken and weeping child, while the Mother and Father of the drunkard are filled with grief and alarm at his fate.

The living drunkard of the present grasps his glass, yet pauses to listen to moral suasion, which is represented by a Temperance Lecturer in argument, and behind him stands the officer of the law representing legal suasion.

Another group represents the Genius of Temperance, in white robes, holding in one hand the Temperance Pledge and in the other a pitcher of water. Approaching her is an aged man leaning upon the arm of his daughter, by whose influence he is about to sign the pledge.

Beyond the Genius of Temperance is a group representing a happy Temperance Family—the Husband and Wife and three innocent children.

This is an imperfect sketch of the picture, but sufficiently accurate, we hope, to awaken no interest in our community to have it publicly exhibited and explained. It is a perpetual temperance lecture, addressed to the understanding and the heart, through the eye, and when fully explained by the artist, the horrors and evils of intemperance stand out in vivid contrast with the security and blessings of temperance.

We feel highly gratified that a picture possessing so much effect and which is calculated to do so much good, has been painted in our city. We hope no timidity or over modesty on the part of the talented artist, will be allowed to prevent the exhibition of this picture, in this city. The last touches will soon be put to it, and in ten days, probably, it will be ready for exhibition. We must insist upon it, that it be not removed from the city, previous to its public exhibition; for our people would be highly gratified with the picture, both on account of its merit and its fine influence.

Sudden Death.

It becomes our painful duty to announce that Col Isaac Dennison, one of our enterprising and most useful citizens,—a man of probity, and who was generally esteemed,—died very suddenly yesterday afternoon. He was about town and doing business yesterday morning, and was apparently in excellent health up to the time when he fell down in his house and instantly expired. Thus are we all renewedly reminded that 'in the midst of life we are in death.' Col. Dennison was 68 years of age.

Division of Texas.

The Houston Telegraph refers to a proposition to divide Texas, without delay, into two States, the Brazos being the boundary between them, and adds that application has been made, on the suggestion of members of Congress, to the Texas Senators and Representatives to bring in a bill for that purpose. The real object of this movement is to swell the Southern vote in the Senate.

Democracy.

The modern democrat is in favor of having our *work done in Europe* instead of doing it at home; of consuming *foreign made products* instead of American; of patronising *foreign labor* and *laborers* instead of our own; of purchasing *every thing* from abroad and letting American laborers, mechanics, and artisans and manufactures STARVE or work for *sixpence a day* as they do in the POOR HOUSES of **Great Britain!** Freemen of Maine will you sustain such a party now when they openly declare themselves the advocates of **Free Trade** and the friends Sir Robert Walker's **British Tariff!**

Lyceum.

We understand that the prospects of the Lyceum for the approaching season, are quite brilliant. The spacious Hall over the New Market, has been agreed upon as the place of meeting. The Managers have already secured Rev. Ralph Waldo Emerson to open the course by the delivery of some half dozen lectures.—These lectures are to be followed by a lecture from Charles Sumner, Esq, of Boston, and lectures from other popular men. These arrangements can hardly fail of making the Lyceum more popular than ever, with our citizens, and the lectures cannot well be otherwise than interesting, even to the most fastidious.

☞ The newspaper mail due here on Wednesday evening, did not arrive until last evening Some of the Post Masters in the Western part of the State probably thought that stopping the papers for one day was a small affair. Well, we can get along very well so long as the boats come through as regularly as at present, and Jerome & Co.'s Express does up the business in its usual good style We gave the news in our paper yesterday one day in advance of the mail.

☞ Our City Marshal, Walker, returned to this city yesterday, from Boston, having in custody Daniel Foster, charged with robbing Gilman & Co.'s Express on board the steamer Penobscot, as before reported. Foster was brought to this city on a requisition from the Governor.

☞ We tender thanks to Jerome & Co.'s Express, to Col. Maxwell, conductor of the Railroad, and to the officers of the steamer Governor, for papers received yesterday in advance of the mail.

More Democratic Thunder from Pennsylvania.

The Democratic Union (printed at Harrisburg, and it is the State paper,) notices four county meetings denouncing the British Tariff. In Columbia county, which gave Polk 1620 majority, the meeting boldly declared they would support no man for President or Vice President of the United States, or for Congress, who is opposed to [illegible] principles are of a doubtful character on this subject.

The Union also contains the annexed items:

"The 'Democratic Herald,' published at Butler, Pa., contains a most admirable article in favor of the Tariff of 1842. The home thrusts given by the Herald to the time-serving politicians of the South, exhibit the true feeling which pervades the State upon this momentous question. The Herald closes the article with the following admonition:

'Democrats of Pennsylvania we have but one course to pursue. When the time comes for the selection of a man to fill the Presidential chair, let us choose one from the North, who is known to be in favor of the great interests of the country, and who will not 'preach up our political salvation on paper, and work out our eternal damnation in deeds.' We have ever guarded against sectional party spirit. It was the last advice of Washington to the people of the United States; but we are driven to it now by a reckless disregard, on the part of the South, of what is but justice to us. If in the emergency, evil befalls us, let her take the responsibility."

SPEAKS LIKE A ROMAN.

The Carlisle Volunteer holds the following bold and manly language upon the tariff.—These are the sentiments of an independent press, and, as such we take pleasure in placing them upon record:

"We are mortified to find that a few—a very few—Democratic Journals of this State remain silent at this time in relation to the Tariff.—What! are you afraid to speak? Afraid! and of what? Afraid to avow yourselves in favor of a just Tariff, as *you did* in the campaign of 1844! Away with such conduct: it confounds and mortifies right thinking men. Do not, we beseech you, place yourselves upon an equality with your political adversaries, in *professing* one thing and *doing another*. Let there be no neutrals now—let us all express our sentiments fearlessly and above-board, "regardless of denunciation from any quarter."

We add the following extract from a private letter, dated Philadelphia, Aug. 3d, and written by one who has been, until now, a zealous supporter of the administration.

"The Tariff bill is at last the law of the land, Pennsylvania to the contrary notwithstanding, and your humble servant has in consequence closed accounts and allegiance to and with the great family of Locofocos I like a bold front and no deception. In our good old State of Pennsylvania, we entered the last Presidential campaign with "*Polk, Dallas, and the Tariff of 1842,*" inscribed on our banners. We led the van, and we decided the battle by victory in favor of our man over an opponent who justly ranks amongst the greatest of his age, and whose services to his country have endeared him to every honest man from the Atlantic to the Pacific, and from the disputed territory in Maine, to the most Southernmost line of *annexation*, if the Devil himself can tell where that is. We knew the merits of Mr. Clay, but we were smarting under the Waterloo Old Tip gave our party pride, rather than for any great sympathy we had for orr Kinderhook Fox of that day, and we resolved to do or die. We did it fully and wiped out all the disgrace of defeat. Now, we are about to reap the fruit, which I fear will be a bitter dose.

If our party required of the Democracy of Pennsylvania any evidence of our fidelity, we gave it abundantly in the vote we gave for Polk and with that they should have been satisfied, and should have handled our *iron* and *coal* very tenderly. They have disregarded us, and we shall now fall upon them with that vengeance known only to those who have been betrayed by friends who should never have forsaken or forgotten them. The people of our State are slow to forsake those who entertained with them similar feelings, but when once convinced of fraud and treason, they are not slow to punish."

"Set us down as good against the next Locofoco candidate."—{Vt. Gazette.

General Gaines.

It seems that General Gaines has not escaped unscathed from the Court of Enquiry.—The Court is of opinion that he has been guilty of repeated violations of law, in calling troops into service without authority, and in a number of other acts. The Court however recommend to the President, in consideration of the good and patriotic motives with which the General was actuated, and his public zeal, "that no further proceedings be had in the case." The President expresses his views of the case in the following language:

"The President views, with deep regret, the exercise of this assumed authority on the part of the late commander of the western division; and while he is disposed to give every consideration to the circumstances, which may tend to qualify or mitigate his conduct, he can see nothing in them which would justify him for withholding the expression of his decided disapprobation of the irregular and unauthorized proceedings of that officer. But in consideration of the recommendation of the Court, and concurring with them in their opinion of the "good and patriotic motives of the public zeal by which he was actuated," the President directs that further proceedings in the case of Brevet Major General Gaines be dispensed with.

☞ The National Intelligencer contains an excellent article reviewing the President's avowed reasons for vetoing the River and Harbor Bill.—After placing in a strong light the fallacy of his reasons, and the impropriety, and inexpediency of his course in this matter, the Intelligencer winds up with the following paragraph:

"We need only add, that we see not, for our life, how, upon the axioms of this Veto, the Federal Government can improve any thing, by Land or Lake, or Sea or River. Were the President's scruples as to War, half as nice as those which he cherishes in regard to Peaceful things, he could hardly raise 'a corporal's guard,' except of politicians; and were his notions as to the power of doing good half as expansive as those of havoc, he might open a canal to every pond in the Union."

Matters at Washington.

We find in the Baltimore Patriot the following rumored intelligence from Washington, under date of the 23d inst;

"Mr Bancroft and Mr Polk have, I understand, had a free and unreserved conversation on the subject of the former leaving the Cabinet. They are congenial spirits and love each other, as much as two such men are capable of loving.

It is understood that Mr Bancroft is offered either the Mission to France or England, for which he may leave the Navy Department the 1st of October, or earlier if he prefers. He has reason to fear tha the Senate will not confirm his nomination—but what of that? He gets $9,000 outfit his salary $9,000 per annum until he hears of his rejection officially, and then this infit of $4,500—in all nsnug round sum!

Mr John Y Mason—the best man in the Cabinet—goes back to the Navy Department!

It now appears tolerably apparent that the two million grant asked for by Mr Polk, was to be put into the pockets of Santa Anna, and not Paredes.

I have before asked if Santa Anna had not been approached in this matter? Our Government has an Agent to Cuba. The British Government has sent an Agent there also. And now we see it announced that Santa Anna has left his exile in Cuba to resume the reins of command in Mexico. How he is to land at Vera Cruz unless our blockading squadron, stationed there, is ordered by our Government to let him land, in order that he assume the head of his Government and sell a part of his country to his friend Polk?

What Government has to do in the matter, I know not. The Emperor of Morocco triumphs in his refusals to receive him; and Mr Polk, as he acted on the Oregon question, *backs out!* The place is offered to Mr Stamm, of the New York Globe; but it is not quite so valuable an office as he would like, and he has not yet decided to accept it. Possibly he will.

I hear that either Robert Rantoul of Massachusetts, or Franklin Pierce, of New Hampshire is likely to be appointed Attorney General, if Mr Mason goes into the Navy Department. They are able lawyers both.

Mr. Polk returns to Washington on Tuesday."

BE UP AND DOING.

The election is close at hand. We the people will soon have the privilege, as it will be our solemn duty, to vote for such State officers and members of Congress as we believe will best serve us. We are not each individually to make his own selection and vote for no other, for in this way nobody would be elected. In the respective parties we must get as good nominations made as we can, and then choose from those who stand a chance to be elected. The Whig nominations this year, we believe, are such as we may well be satisfied with, and there are many reasons why we should put forth all our strength. We have members of Congress to elect for two years. The terms of those now to be elected will not expire before the 4th of March, 1849, and the next Congress will meet only a month before the year 1850 commences. Are the people of this State willing to have all their business enterprises suspended so long?—Are they willing to endure McKay's British Tariff till then? Do they want such another Congress as that which has just adjourned?—We have nothing to say against the general character of the delegation from this State.—Personally we have no reason to have any other than friendly feelings towards them: but we think they mistake altogether the true interests of Maine in some of the most important matters, and that those interests will be greatly promoted by the election of Whigs in their place, and we rejoice to say that thus far the Whigs have nominated men in whom all good men may place the utmost confidence. In this District the Hon. Hiram Belcher is every where known and every where respected. He has not merely an unblemished character, but he is eminently distinguished for his long tried integrity, his correct business habits, his sterling common sense and general intelligence, and though he may not boast of any frothy patriotism or extra democracy, he is practically as warm, as earnest and as faithful a friend of his country and his race, as much devoted to human liberty and the rights of man, as any other man to be found in a day's journey. If the seats in both Houses of Congress could be filled up with such men as he, the country might rejoice over its good fortune.

Judge Kingsbery, who has been nominated in the 6th district, is a man of the same stamp.—He is peculiarly well versed in matters of finance and will make a very useful member.

Mr. Morse has already served one term with signal ability. The old Whig members will be very glad to see him in Washington again. He is one of the jewels of the State of Maine, and we cannot doubt his election.

The Whigs of Cumberland have many men who would do honor to the District and the State. They have selected one of their ablest and best, in Josiah S. Little, and we trust they will spare no effort to elect him. Mr. Little is not only an eloquent and accomplished gentleman, but he is a shrewd, practical business man.

Cannot all these four be elected? It is a "consumation devoutly to be wished," but not to be obtained by idle wishing. It may be done by effort. These men would represent *Maine*, and the business men, the working men of Maine.—They would trade away none of these to get some beggarly office from Mr. Polk, or R. J. Walker, nor would the Executive organ have any terrors for them. The cotton planting aristocracy would never lead them by the nose, or get their votes for the extension of slavery.—They would represent Maine and not South Carolina or Virginia. But they would not legislate for Maine alone. They would legislate for the Union and all its mighty interests, its general welfare, its greatness, its integrity, and its true glory.—Kennebec Journal.

Nova Scotia Coal.

The first practical effect of the new Tariff has been to revive greatly the Nova Scotia coal Trade We notice by the shipping lists yesterday, that an unusually large fleet is already at Pictou, and an unprecedented number of vessels have already cleared for that port. It is stated that some of all the factories in this town, are contemplating the use of Nova Scotia Coal, which it is believed will be considerably cheaper than anthracite. We hope however this will not be resorted to unless from necessity. Anthracite coal is so much cleaner than bituminous that it is well worth more. The use of Nova Scotia coal generally would be a great nuisance from the smoke which would be constantly beating down among the buildings. Under the Tariff of 1842, the import of foreign coal has fallen off, until but very little except that required for the British steam ships, and for blacksmiths, has been imported, and anthracite, which next to good hard wood is the cleanest and best fuel in the world, has almost entirely superseded foreign coal.—Under the compromise act of 1833, the import of foreign bituminous coal, principally from Nova Scotia, was 181,551 tons, while the consumption of anthracite coal, was only 817,659 tons, being a falling off in two years of nearly 60,000 tons. In 1845 the import of foreign was only 85,776 tons, (notwithstanding the increase in the number of British steam ships,) while the consumption of anthracite rose to 2021,674 tons.

The Pictou mines belong to the estate of the Duke of York, the uncle of Queen Victoria, but are worked by several jewellers of London, they having obtained a long lease of them, in liquidation of the enormous debts which the Duke's profligacy and extravagance had run up with them. The coal costs at Pictou, from $2,75 to $3 per chaldron of 42 bushels, the duty after December will be 90 cents a chaldron, and the rate of freight is now $2,50 per chaldron, so that a chaldron of 42 bushels of this coal may now be landed here at about the same price which a ton of 28 bushels of anthracite costs, so that if a bushel of Pictou gives out the same amount of heat as a bushel of anthracite the Pictou will be 50 per cent the cheapest. Has any one ever made a comparison which can be depended upon, of the amount of heat which the combustion of the same quantities of Pictou and anthracite coal will produce. The decisions made by the scientific men to whom our government entrusted a similar trial in regard to the various kinds of anthracite are altogether fallacious, and are contradicted by the experience of every practical engineer in the country.—Newburyport Herald.

Commencement at Brunswick.

Commencement will occur on the first Wednesday of September. The oration before the Phi Beta Kappa Society, will be on Thursday by Rev. Dr. Jenks, of Boston, who was for many years settled in this State, and a trustee and professor at the College.

We understand that the orations before the Peucinian and Athenean Societies will be on Tuesday afternoon as usual—the former by Dr. John P. Cleveland, late of Michigan, the latter by the Hon. Geo. Lunt, of Newburyport.

On the afternoon of Wednesday, it is expected there will be a meeting of the Historical Society of Maine, and a discourse before that Society by the Hon. George Folsom, formerly of Saco in this State, now of New York.—[Portland Argus

☞ The Washington Union, alluding to the departure of Santa Anna for Vera Cruz, says:

"Some revolutionary events may be on the wing, having an important bearing—both internal and external—upon the government of Mexico, and upon the war with the United States."

Yesterday forenoon a small boy, 7 or 8 years of age, fell overboard from Central wharf, and would have been drowned but for the intrepidity of Mons. Acrostic.

A way fond heart across the deep,
Let no sad hour thy vigils keep;
Peace brightly gilds thy homeward way
Haste nor protract thy lengthened stay.
O bid thy spirit come to mine
Nor may it bow to other shrine,
Secure in one who loves but thee,
One who dotes on thy constancy.

Fair as the witching hour of even
Rests my hope on its far off haven,
And counts the wearying moments o'er,
Nearing each hour, when parted no more
Kisses as pure as the emerald gem
Linger for aye and love's diadem;
It's a gem that hath the truth to show,
Nightly, a lover's faith or no.

Senor to *thee* I've plighted my troth,
Enduring its band, and purer its worth,
Vows that are written on memory's page,
Each beam brighter unsullied by age,
Revealing to us a heaven of love,
A paradise home, like seraphs above.
Not a pulse but throbs with fondest delight,
Content with they smiles, caressing and bright,
Estranged, nor forgot not, till life ends in night.

JANE.

Dr. Wistar's Balsam of Wild Cherry.

This is the chemical extract of Wild Cherry and Tar. Everybody knows that Wild Cherry possesses important medicinal properties; and Tar Water has always been administered in Consumption and Lung affections generally, by our oldest and safest physicians.

Various remedies, it is true, have been offered and puffed into notice for the cure of diseases of the lungs and some have been found no doubt very useful, but of all that have yet been discovered, it is admitted by physicians, and all who have witnessed the effects, that none has proved so successful as this. For Asthma, Shortness of Breath, and similar affections, it may be pronounced a positive cure. It has cured Asthma in many cases of ten and twenty years standing, after physicians had declared the case beyond the reach of medicine.

This Balsam is made from materials which Nature has placed in all northern latitudes, as an antidote for diseases caused by cold climates.

"Nature is but the name for an effect
Whose cause is God."

Let no not neglect her plainest dictates.

Balm of Columbia.

Ladies and gentlemen, will you be without the genuine Oldridge's Balm of Columbia for your hair? You may depend upon it, it is the only article that is sure to prevent baldness, and keep the head free from dandruff. We have known it to restore hair on the bald heads of persons 70 years of age. Comstock and Ross give references to any that wish, to those who have been perfectly bald for years and have had their hair restored within the last two months. Be sure and get the genuine, with the signature of Comstock & Co. on it, or get none.

TO MILL OWNERS.

THE undersigned would inform all those interested in Mills for the manufacture of Lumber, that he is owner of the Patent Right, for this State, of the celebrated

Stearn's Water-Wheel.

This wheel is now offered to the public with the fullest assurance that it is unsurpassed by any wheel now in use in this State.

The peculiar form and construction of this wheel is such that it exerts the full power of the water, runs with the least friction possible, combines great power and speed, is well adapted for low heads and back water, and is not liable to obstruction by drift stuff, having but few (three to six) apertures.

About fifty sets of these wheels are now running on the Penobscot waters, and have been thoroughly tested. It is now given up by the most skilful and experienced millwrights and millmen, that they excel any wheel in use.

These wheels are manufactured and for sale by FRANKLIN MUZZY & CO., Bangor, who are furnished with patterns for all the different sizes, and are authorized to contract for the Right of use, or Patent. SAMUEL VEAZIE.

NOW TO THE TESTIMONY.

PREJUDICE however deep rooted and long standing must yield to simple, ungarnished statements of fact, like the following:—Captain Thompson is well known in this city, and in many parts of this State, and his statements are highly important. Read them.

Bangor, May 18, 1846.

I have been very severely afflicted with a distressing cough, attended with asthma. For three years, especially during the winter season, for some eight or ten years past I have expended a large amount of money in endeavoring to regain my health and have tried nearly all the preparations of the day with little or no benefit. During the first part of last winter I was much worse than I ever was very much worn down with my cough, and became so that I was unable to attend to business. I felt discouraged and began to conclude with my friends that my case was a hopeless one. Whilst in this situation, a friend called to see me and advised me to send and purchase a bottle of Hunter's Pulmonary Balsam, and a box of the Indian Dyspepsia Pills prepared by CURTIS & CO. of this city, saying he had made use of them in a case very similar and had been cured. I had little or no confidence in any patent medicines, having tried many and found no relief, and objected sending for them for some time. At the earnest solicitation of several who declared they had found relief from them, I purchased a bottle of the Balsam and a box of the Pills. Very soon after, I commenced using them, was relieved from the distress at my lungs, my cough became loose, and I raised easy. Soon after my cough began to disappear, and in less than a month it was perfectly well. My lungs have since been perfectly well, and have been so for months. I believe the Balsam and Pills SAVED MY LIFE. I have made use of it since for my children in cases of colds and coughs, and it has universally given them immediate relief and cured the cough. I do most cheerfully recommend it to the public, believing it the *best article in the world* for all lung complaints, asthma, &c. JOHN THOMPSON.

The Balsam and Pills are sold wholesale and retail by CURTIS & PERKINS, No. 4 Strickland's Block, West-End Kenduskeag Bridge, Bangor. Also, by D. BUGBEE, and Druggists generally in this city. 3m june 30.

Economists take Notice,

THE WASHINGTON BAKER and FURNACE is a union of the qualities of the YANKEE BAKER and FURNACE combined.—The Furnace is made in such a manner, that it can be used in connection with the Baker, or taken away and used separately. It has two places for boiling, directly over the fire. The Covers and Centre Piece can be taken off, and a Flat Heater used, in which three or four Flat Irons can be heated at one time. It can be used either with Charcoal, Wood or Bark. The Furnaces are sold with or without the Baker. By means of Pipe, it can be used where there are no Fire Places, or without removing your Cooking Stoves.

PATENTS.

AMERICAN AND FOREIGN OFFICE,

And Agency of the U. S. Patent Office, Washington

22 State Street—Boston.

THE subscriber, by appointment from the Commissioner of Patents, is Agent of the U. S. Patent Office for the purpose of receiving and forwarding to the same all such models, specimens of ingredients, and manufactures, as shall be intended to be patented, or deposited therein, which will be received and forwarded, free of expense and risk, to their owners, and with all possible despatch. The subscriber will prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works, for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. The experience of fourteen year's practice—an extensive collection of rare works, documents, decisions, &c. on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents, which in other respects might be difficult of attainment.

A. G. BAGLEY'S

CELEBRATED IMPROVED EVER-POINTED

GOLD PEN.

WARRANTED.

THIS Pen received the highest premium at the last Fair of the American Institute, and has been pronounced by the first Teachers of Penmanship in the country, to be infinitely superior to any Gold Pen ever before introduced to the American public. These Pens are indestructible except by actual violence—no ink will injure them—retain their elasticity, and the peculiar shape of the nibs, (which was first introduced by Bagley) makes it more pleasant to use, renders it less liable to damage, more easy to repair, and prevents the necessity of the great care that other articles of the kind require.

Manufactory, 189 Broadway, N. York.

Also—BAGLEY'S "*Extension Pen Holder and Pencil,*" which is the most compact article in use.

Suppression of Quackery:

To the Public.

WHEREAS several persons calling themselves Veterinary Surgeons, have gone and are going around this part of the Country performing the operation of Nemojomy—that is, cutting the Metacarpah nerve in case of lameness of the feet.

Let those who have sick or lame horses inquire of the Quack or Pretender the nature and seat of the disease previous to his performing the above operation. The patient without being properly examined may be laboring under a wound caused by a nail which he has picked up on the road—may have sprained his ancle—the tendons, or cords, or even the shoulder. The disease is therefore attributed to the foot. The above operation is performed and the animal is destroyed for ever. The operation may be performed with successin many cases by DR. RICHARD KERN, Veterinary Surgeon of Cambridgeport, Mass., whose skill as a Veterinary Surgeon is well known in that part of the country.

Pearl Street House,

88 PEARL-STREET, NEW YORK.

THIS spacious Establishment erected for the especial accommodation of MERCHANTS, in the very centre of the most populous business district of the city, has passed into the hands of the undersigned who have been engaged during the last two months in making such additions and improvements as the former condition of the House seemed to demand. To those who have hitherto extended their patronage to this Hotel, it must be obvious that, in some particulars, the management was susceptible of improvement; and without entering into details, they will simply state that where such was necessary, neither expense nor labor has been spared.

The Dinner hour has been changed from 2 to 1 o'clock—a Dinner is also served at 3 o'clock, in the Ladies' Ordinary.

With the most careful attention to the comfort of visitors in every department of the house, the Proprietors hope to receive and respectfully solicit a liberal support.

CONSUMPTION CURED!

BUCHAN'S HUNGARIAN BALSAM OF LIFE.

THE

GREAT ENGLISH REMEDY

For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases, still stands unrivalled and unsurpassed as the most elegant, agreeable, and effectual curative of these formidable complaints now known to the civilized world

Three years of trial in the United States during which time it has been distributed from Maine to Florida has only served to establish its pre eminent merit in all parts of the country as the great and

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease, and the best and most agreeable curative of all the slight forms of colds, cough and inflammation, that can possibly be used

SPITTING OF BLOOD. This frightful symptom of approaching Consumption, is speedily checked and prevented by the use of Buchan's Hungarian Balsam, which heals the affected membranes, removes the incipient tubercles, and restores those vital organs, the lungs to a sound and healthy condition

REMEMBER THIS Spitting of Blood always arises from a tendency to Pulmonary disease and if not checked at the outset will sooner or later detain no in death A person who raises blood often will mark blood again, unless a proper curative is immediately employed

PAIN IN THE SIDE This distressing symptom of Consumption arises from inflammation of the Lungs or the Membrane called the Pleura, or from Bronchial affection of the air passages In either case it is a very dangerous infliction of disease Improve its full and free breathing and where away the natural strength of the system The cause of this symptom should be removed at once, and nothing can possibly effect that object so speedily and happily as the Great English Remedy, discovered by Dr Buchan, which is entirely vegetable in its ingredients, and perfectly harmless in all its qualities

LIVER COMPLAINT In cases of Consumption the Liver is always more or less affected and also the Spleen, Pleura, and small Intestines On dissecting Consumptive patients, Tubercles are often found in all those organs particularly upon the Liver, which also becomes fatty, only to be unwelled The effect of the Hungarian Balsam in diseases of the Liver, especially if at be of an ulcerous nature is decided and powerful *Simple disease of the Liver was cured by Consumption is speedily cured by its use*

WINTER COUGH The hard, dry, hacking winter cough which afflicts old *people* and invalids will be also of health is happily affected by the *Hungarian Balsam.*

It warms, moistens and stimulates the whole breathing apparatus, removes all morbid mucus, and other foul matter, purifies and animates the blood improves the secretive power of the Liver Spleen and other large glands and the digestive organs and imparts new life to the worn and emaciated system

BRONCHITIS Bronchitis Difficulty of Breathing, Harsh Cough, Asthma expectoration, with all other symptoms caused by an affection of the air tubes leading from the throat to the lungs are directly and decisively cured by the use of the celebrated remedy invented by *Dr Buchan.*

This is a very painful, wearing and injurious complaint, and always has a powerful tendency to inflame and soften the Lungs and thereby to induce the worst form of Pulmonary disease Be warned in time, ye afflicted' and employ this valuable remedy

TUBERCLES ON THE LUNGS' The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs Incredible as this is generally esteemed, we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect, in all cases where there is no natural organic defect In fact, so confident is the American Agent of its power to cure the worst form of this disease that he prefers, (as he has frequently stated,) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians, rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent He boldly declares that it will cure Pulmonary disease and confidently solicits a trial in the *worst of cases*

EXPLORATORIA' Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs The Cough which is so distressing is simply the result of a desire to expectorate, and as long as foul matter exists in the air passages it will continue to irritate the membrane and provoke a cough Coughing is an attempt to throw off this matter, and expectoration gives great relief Inability to expectorate is the latter stages of Consumption is the cause of death

The Hungarian Balsam is a *great Expectorant*—It dissolves the morbid and diseased matter in the air passage, changes it from a thick, glutinous substance, to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient! There is no better medicine in the world, if its expectorant qualities alone be considered

SPASMODIC ASTHMA Simple or Spasmodic Asthma, has no better remedy than the Hungarian Balsam This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy, as readily as any other form of Pectoral disease

CONSUMPTION' Consumption has been graphically described as a' *Shrinking of the self*' The Hungarian Balsam by its cleansing warming softening and animating power, produces not shrinking but *expansion'*

Before its delightful influence, all chills, fever nightsweats costiveness blueness of the nails, a hot flushed skin, an uncertain strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun! This is no delusion, but demonstrable fact, sustained by incontestible proof from all parts of the country

BE WISE TO DAY' Delay in any case of Consumptive tendency is emphatically Death, under all ordinary treatment the Hungarian Balsam is a great ANTIDOTE as well as CURATIVE If you have any symptoms above described, be advised in time

Sold in large bottles at only one dollar per bottle

Highly Important to all Invalids & friends of Invalids.

THE AFFLICTED IN DANGER
SALUTARY CAUTION,
READ! READ!!

THE well established and well earned reputation of WRIGHT'S INDIAN VEGETABLE PILLS, as a Sovereign antidote and cure in cases of Fevers, Head Aches Indigestion, Dyspepsia, Dysentery, Colic, Female Complaints &c &c has excited the cupidity and envy of the proprietors of other medicines, and almost all of similar qualities cannot be unguarded, has arrayed against them the antagonist efforts of men who seek to pass off other medicines by the reputation of Wright's Indian Vegetable Pills

Beware of all attempts to palm off any (so called) specifics by means of spacious sounding and deceptive titles "SUGAR COATED PILLS" may be pleasant to the palate, but it requires something more than a agreeable exterior to combat with disease We shall not attempt to analyze the composition of the "Sugar Coated or pretended improved Indian Vegetable Pills," which have been thrown into the market and advertised extensively in the country papers—we have no desire to do so—nor is it necessary It is, however, our duty to assure the public emphatically, that they are not an improvement on WRIGHT'S Indian Vegetable Pills, and that, whoever purchases them under this supposition is wilfully deceived This caution is positively necessary since the title (nearly) the qualities set forth, the combination of ingredients, &c are all those which formed the distinctive and original character of the true medicine

Remember, buy none but "WRIGHT'S Indian Vegetable Pills," which are protected by a patent These have attained an almost incredible sale and circulation, owing altogether to their own intrinsic merits. The public will pass its own judgment upon any attempt to snatch the laurel from the brow of the inventor of these medicines where it has been placed by grateful thousands who owe it our continuance of the enjoyment of the blessings of health to his happy and benevolent agency

Wright's Indian Vegetable Pills

have performed wonders when used in cases of Intermittent, Remittent, Nervous, Inflammatory and Putrid Fevers, Measles, Small Pox and Erysipelas, Inflammations, of the Brain throat, stomach, lungs liver intestines kidneys and bladder, pains in the stomach, back and side consumption, dropsy of the head of the chest, of the abdomen and of the limbs, scrofula, scurvy and syphilis, cancers, gravel, loss of appetite, sick headache, rheumatism, both acute and chronic, spitting of blood, diarrhea dysentery and colics, syncope, apoplexy and paralysis dyspepsia, hypochondriasis, epilepsy, hooping cough, Palpitation of the heart, ulcers and sores of every description, hysterics, weak nerves, and low spirits suppression and other delicate Female Complaints

No other medicines ever discovered has grappled those horrid forms of disease with such general success. They derive this powerfully THE EMPLOYMENT OF NATURAL MEANS TO COUNTERACT THE EVILS OF NATURE The bowels of the earth have not been ransacked for poisonous minerals to infect the system under the pretence of eradicating disease The Field and the Forest alone have been searched for medicinal remedies and from these have been collected the healing art From these have been collected remedies attacking the various forms of disease, and expelling it by the outlets provided by the author of our Being—the Lungs the Skin, the Kidneys and the Bowels Hence Wright's Indian Vegetable Pills, based upon the curative mode suggested by nature, are Sudorific Diuretic, Expectorant and Purgative

The ORIGIN of this invaluable medicine entitles it to unlimited confidence and respect The nearer we approach to nature, in our researches after truth both in science and art, the more complete will be our success in both Look at the uniform physical condition of the Indian Tribes of this continent whether exposed to the frosts and storms of the North, or to the rain, heat, and pestilential miasma of Southern climate Houseless, unprotected, exposed to every atmospheric change, every extreme of the seasons dwelling at times in morasses and by the margins of unhealthy pools and swamps—they yet enjoy an almost total immunity from disease, while the white man who enjoys all the comforts of civilization with its attendant arts is as much inferior to the savage in physical vigor, as he is superior to him in intellectual acquisitions—How does this happen? Simply because he left of the light of science, he relies upon that divine instinct which impels him to select from the produce of the field and forest those remedies which Nature and Nature's God has bounteously provided for the solace of suffering, and the mitigation and cure of disease—sowing them broadcast on every hill and valley Let those who impiously arraign the good justice of Divine Providence, and point with a sneer to the multitude of invalids who lie groaning upon beds of sickness, turn from the false lights of man, and study the secrets of nature, and they will adore that mercy which has so bountifully provided a cure for every wound—*a remedy for all who seek one*

Diseases rarely assume one form from another even in any one case—hence the absurdity of attacking it by one uncompounded medicine But Wright's Indian Vegetable Pills combining a remedy for every form of disease, attacks successfully any combination of malady This union of powers render these pills thoroughly cleansing in their nature and operations They cannot fail of affording relief if taken according to directions accompanying them They may be freely resorted to in the most desperate cases of the most dangerous disorders, for they have effected remarkable and marvellous cures They are applicable to a wide range of diseases and their use is not confined to any particular age or to either sex They are now triumphantly established beyond the reach of cavil and the only danger that exists is on the part of the public lest they should suffer from imitations spurious Pills, palmed off by the help of titles similar to that of the genuine Pills Therefore, we once more caution the public against purchasing any but the

GENUINE
"WRIGHT'S INDIAN VEGETABLE PILLS."

These Pills as we before remarked operate by purgation—by thoroughly cleansing the entire system from all impurities, and making the invalid, in the homely but expressive phrase 'a new man' whether the disease is INCIPIENT CONSUMPTION which insidiously attacks the Lungs, producing that dry, hacking cough so painful to the friendly ear, or Cutaneous, showing itself upon the skin as eruptions or blotches, whether the Kidneys or the Bowels be affected—*Wright's Indian Vegetable Pills* are equally efficacious in warding off danger Their expectorant, cathartic, sudorific and diuretic qualities enable them to take hold of each form of disease

The *perfect safety* of the medicine is another all important quality and one which has contributed more than any thing else to its extension and popularity

In a word, this medicine commends itself strongly to the patronage of the public, and its use bids fair to become, before long, ALMOST UNIVERSAL

DR. UPHAM'S Vegetable Internal Remedy FOR THE PILES!

☞ A Cure for Life Secured. ☜

For the cure of Piles, Inflammation of the Liver and Spleen Inflammation Soreness and Ulceration of the Stomach Bowels Kidneys and Bladder Inflammatory and Mercurial Rheumatism, Impurity of Blood Weakness and Inflammation of the Spine and for the relief of Married Ladies

THE VEGETABLE PILE ELECTUARY Invented by Dr A Upham, a distinguished physician of New York city, is the only really successful remedy for this dangerous and distressing complaint, the Piles, ever offered to the American public

Mark this it is an INTERNAL REMEDY—not an external application and will cure any case of Piles other Bleeding or Blind, Internal or External and probably the only thing that will There is no time to take about it It is a positive cure, speedy and portmanent It is also convenient medicine to take, and improves the general health in a remarkable manner

Each box contains two dozes, at $1 3 cts per dose It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger All external applications are in the highest degree disagreeable inconvenient, and offensive, and from the very nature of the disease, temporary in their effects This Medicine attacks the disease at its source, and *removing the cause* renders the cure *certain and permanent.*

INFLAMMATORY DISEASES—Although the *Electuary* was originally prepared for the cure of Piles, yet it has proved itself to be a medicine far superior to all others, in all diseases of an Inflammatory character, with a determination of blood to any particular part or organ In Inflammation and Congestion of the Liver and Spleen, Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys, and Bladder, in Inflammatory and Mercurial Rheumatism, it is the best Medicine ever discovered

IMPURITIES OF THE BLOOD—For all Impurities of the blood arising from the imprudent use of mercury, or other causes, for all Diseases of the Skin and Scrofulous Affections, in all cases where the Blood is powerfully determined to the Head, producing dizziness and distress, Dr Upham's Electuary is entirely unrivaled

☞ *TO MARRIED LADIES*—Married Ladies are almost invariably subject, to this painful and injurious disease, the PILES, with consequent Inflammation of the stomach bowels and spine, weakness of the back, flow of blood to the head, &c The Electuary is perfectly safe for Pregnant Ladies, and the most useful Cathartic that can possibly be used, as it will not only remove the Piles and all inflammatory diseases, *without pain or irritation*, but will ensure an easy time, a safe delivery and a sound constitution to the offspring

CURE FOR THE PILES GUARANTIED—The Electuary contains no mineral medicine, no Aloes, Colocynth, Gamboge, or other powerful and irritating Purgative No fear of taking cold while under its influence, no change in diet is necessary If taken according to the directions, *A cure for Life is Guaranteed*

Dr. S. O Richardson's CONCENTRATED Sherry Wine Bitters.

THE Proprietor of this Medicine offers to the public the result of an extensive practice and a thorough investigation of the laws which govern the human system

It cannot be denied by those who have become acquainted with the singular virtues of these Bitters that they possess a pre eminence over all other now in use, for the diseases which they profess to cure

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels in youthful adult and declining life

The extensive sympathies which subsist between these and every other part of the living body are the foundation of nervous diseases of all kinds, Irregular Appetite, Langour, Drowsiness Wandering Pains, Headache, Lowness of Spirits &c

And these, in their turn give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice Piles, Fevers, Inflammatory Humors, Coughs and a host of diseases which embitter life and poison all sources of enjoyment

The distinguished character of these Bitters is most striking, their operation being more or less powerful according to the violence of the disease When used in appropriate quantity, in cases of slight derangement of the Stomach and Bowels caused by costiveness or a slight bilious difficulty and the like, whose nature needs assistance to prevent more serious consequences, they will be scarcely felt

On the contrary in obstinate cases they frequently operate more powerfully, causing two or three evacuations daily, until the circulating fluid becomes purified This accomplished they act on the system in connection with our food, each receiving mutual assistance until the constitution is restored to a state of health and renewed vigor
